

**KOVACO**  
ELECTRIC

## GREEN BUT TOUGH

A NEW BREED OF SKID STEER LOADER

# Next generation ideas for an ever evolving world

**KOVACO Electric** company has always seen the power in simplicity. That is why we have developed a new type of skid steer loader which is **100% electric**, operates up to **8 hours** with one charge and has zero environmental impact. It offers a wide range of applications thanks to a **large number of attachments**.

By removing all unnecessary features, KOVACO Electric products have become more user-friendly, more **control and maintenance intuitive** and more **future technology based**.

A live presentation is an experience like no other. This knowledge can be implemented in your own business.

The concept of simplicity became one of our company's goals and since then it has been part of its DNA.

***“Living in the now is not enough, let’s think about the future.”***

# ELISE 900

Imagine a skid steer loader with the power and capabilities of world-class loaders, but with only one difference- **zero environmental impact.**

Kovaco Electric is the first fully, electric skid steer loader. **100 % environmentally friendly**, it remains unique to the machinery world, and it still is the only fully electric skid steer loader available to customers world wide!

**2-6 h** of operation 

**8+ h** with extended battery  

charging time **100% - 3.5 h**

**hinge pin height 3637 mm**

**tilt 47°**

**automatic** bucket alignment

**environmentally friendly** 

**Loading capacity**

**1400 kg**  
with 400 Ah battery

**900 kg**  
with 240 Ah battery pack

**Remotely controlled**

**Joystick 433 Mhz**

**50 m** operating radius

**2 axis** joystick

**tertiary control touch screen**

**Smartphone**

**15 m** operating radius

\* For Smart Management batteries only. Standard battery 100% capacity charging time is 53 hrs.

## Specifications

Rated load capacity	900 kg
Tipping load	1 800 kg
Minimum travel speed	0.15 km/h
Maximum travel speed	12 km/h
Permanent maximum travel speed	12 km/h

## Weights

Rated operating weight	3 300 kg
Total weight of the loader	4 200 kg

## Engine

Electric engine type	3 x GEW
Rated power	3 x 10 kW
Maximum power	3 x 27 kW
Maximum torque	3 x 120 Nm

## Electrical system

Charging time 80%	3h
Charging time 100%	53h
